

Virtual Dementia Tour

• THURSDAY, NOVEMBER 7 •

CHANDLER PLACE
Assisted Living & Memory Care

Join us for a virtual tour to aid in the understanding and care of your loved one with dementia. The simulated experience will take place in a resident's room and we will set an environment that restricts sight, sound and sensation.

By attending this tour, you will learn more about:

- *The physical and mental challenges of dementia;*
- *How you can deepen your relationship with those suffering from dementia; and*
- *How we can partner together to provide more person-centered care.*

• RSVP BY 11/5 •
