

BE PROSTATE AWARE

MEN'S HEALTH SEMINAR

Wednesday, June

15TH

12 - 1 p.m.

Celebrated each year during June, Men's Health Month brings awareness to the health issues all men face.

Join us for lunch and hear radiation oncologist [Dan Fried, MD](#) speak about general prostate health, explain the process of discovering and diagnosing prostate cancer and share the latest treatment options available at [Gibbs Cancer Center and Research Institute](#).

Space is limited and registration is required to attend.

Click on the link below for event location and details and to register by June 12.
